Full Stack Developer

Shweta Jayant Pallewar

Email: shwetapallewar@gmail.com

Phone: +91 8805239632

Professional Summary:

- More than a 1 year 9 months of software development experience, specializing in the design, development and deployment of web-based applications.
- I am skilled in developing Single Page Applications (SPA) and dynamic responsive web applications using React.
- Proficient in tools like npm, WinSCP, PuTTY, Postman, and Visual Studio Code.
- Experienced in both client-side and server-side scripting languages including HTML5, CSS3, JavaScript, TypeScript, and frameworks like React, Redux.
- Strong understanding of Agile processes, including Scrum methodology.
- Extensive knowledge of the System Development Life Cycle (SDLC).

Technical Skills:

- **Front End Technologies:** React js, TypeScript, JavaScript (ES6+), HTML5, CSS.
- **State Management:** Redux
- **Server-Side Technologies:** MySQL, RESTful APIs.
- **UI Frameworks:** Material UI, Prime React UI Library, Bootstrap, SASS(SCSS).
- **Development Tools:** NPM, Postman, Putty, WinSCP, Git.
- **Methodologies**: Agile, Scrum Sprint, Jira, Taiga.
- **IDE**: Notepad++, Visual Studio Code, Visual Studio.

Professional Experience :

Antro-Pai Technology Pvt. Ltd - *Front-End Developer   Hyderabad |* **21Mar 2024 – Nov 2025**

1. Geno Tracker (HRMS Application)

- Spearheaded front-end development using **React.js**, accelerating delivery timelines by **80%** through optimized workflows and collaboration.
- Integrated **REST APIs** with **Axios, Redux Toolkit, and Fetch API**, ensuring **real-time HRMS data updates**.
- Implemented **JWT-based authentication** to safeguard sensitive employee and project data.
- Designed **responsive UI** from **Figma wireframes**, significantly improving **user experience and engagement**.
- **Technologies:** React.js, Redux Toolkit, Axios, Fetch API, JWT, HTML5, CSS3, Bitbuc

2. Antro Corp Website

- Developed and maintained the **corporate website (Antrocorp.com)** using **React.js** with a **component-based architecture**, reducing code duplication by **60%**.
- Collaborated with designers to translate **Figma designs** into responsive, user-friendly pages.
- Ensured **cross-browser compatibility** and optimized performance for faster load times.
- Contributed to version control and collaboration using **Bitbucket**.
- **Technologies:** React.js, HTML5, CSS3, JavaScript, Bitbucket

Zenius IT Services Pvt. Ltd. — *Full Stack Developer* *Hyderabad | 3 Feb 2025 – Present*

3. AI Dental Project

- Developed a **React application** for managing patient records and analyzing dental X-rays using **AI integration**.
- Implemented AI models for **teeth numbering, decay detection, and interactive severity visualization**.
- Designed a **treatment recommendation system** that suggests procedures based on AI analysis.
- Utilized **.NET and MySQL** for efficient patient data management, ensuring secure and seamless storage/retrieval.
- **Technologies:** React, HTML5, CSS3, JavaScript, Bootstrap, .NET, MySQL

Project: Built an AI-powered dental platform that detects decay in X-rays, visualizes severity, and provides treatment recommendations.

4. TruDose Project

- Developed a comprehensive **admin portal** using **React.js** and **Material UI** for hospitals, clinics, devices, and patient management.
- Integrated a **MySQL database** to manage hospital account details, clinic assignments, devices, and patient records.
- Designed an interactive **dashboard** to display hospital accounts and assigned resources.
- Implemented **reporting and settings modules** for efficient data management, with a **.NET backend** handling business logic and API services.
- **Technologies:** React.js, Material UI, MySQL, .NET

Project: Built a hospital admin portal for managing hospitals, clinics, and patient data, including dashboard visualization, reporting, and settings management.

Education:

Master Of Computer Applications (MCA)

Institute Of Kamla Nehru Mahavidyalaya 2021 - 2023.
